

PRESS RELEASE

Heidelberg Pharma Announces Participation at Various Conferences

Ladenburg, Germany, 10 September 2020 – Heidelberg Pharma AG (FSE: HPHA) today announced that they will participate at the following events. Heidelberg Pharma is an oncology specialist and the first company to develop the toxin Amanitin into cancer therapies using its proprietary Antibody Targeted Amanitin Conjugate (ATAC) technology, and to advance the biological mode of action of the toxin as a novel therapeutic principle.

H.C. Wainwright 22nd Annual Global Investment Conference (virtual format)

Date: 14th – 16th September 2020

Details of the presentation

ATACs: a unique new mode of action to fight cancer

Date: 16th September 2020 at 10:00 am EDT / 04:00 pm CEST

Presenter: Dr Jan Schmidt-Brand, Chief Executive Officer and Chief Financial Officer

Access to the presentation: <https://wsw.com/webcast/hcw7/hpha.f/1773389>

International HealthTech Innovation Days (mixed format)

Date: 5th – 6th October 2020

Venue: The Peninsula Paris, Paris and virtual

Dr. Jan Schmidt-Brand will participate as a speaker on 5th October 2020 at 05:30 pm in the podium discussion „Opportunities and challenges for Innovative Healthtech companies in Europe“.

About Heidelberg Pharma’s proprietary ATAC technology

Antibody Drug Conjugates (ADCs) combine the high affinity and specificity of antibodies with the potency of cytotoxic small molecules for the treatment of cancer. Antibody Targeted Amanitin Conjugates (ATACs) are ADCs whose active ingredient is made up of amatoxin molecules. Amatoxins are small bicyclic peptides naturally occurring in the death cap mushroom. They inhibit mRNA transcription by binding to RNA polymerase II, a mechanism that is crucial for the survival of eukaryotic cells. In preclinical testing, ATACs have been shown to be highly efficacious, overcoming frequently encountered resistance mechanisms and combating even quiescent tumor cells.

About Heidelberg Pharma

Heidelberg Pharma AG is a biopharmaceutical company based in Ladenburg, Germany. Heidelberg Pharma is an oncology specialist and the first company to develop the toxin Amanitin into cancer therapies. The proprietary technology platform is being applied to develop the Company's proprietary therapeutic ATACs as well as in third-party collaborations. The proprietary lead candidate HDP-101 is a BCMA ATAC for multiple myeloma.

Heidelberg Pharma AG is listed on the Frankfurt Stock Exchange: ISIN DE000A11QVV0 / WKN A11QVV / Symbol HPHA. More information is available at www.heidelberg-pharma.com.
